WORK EXPERIENCE

CODSOFT (Remote internship with a focus on front-end development)

Remote

Web Developer Intern

Nov 2024 - Dec 2024

- Developed 3+ responsive, mobile-first websites using HTML5, CSS3, and vanilla JavaScript, reducing load times by up to 40% through code optimization
- Revamped UI/UX components using flexbox and grid layout systems, enhancing navigation efficiency and improving user engagement scores by 25%
- Modularized codebase into reusable components, reducing future development time by 30% and enhancing team scalability

CODEVEDA TECHNOLOGIES (Remote internship at a digital services company)

Remote

Full-Stack Development Intern

Jul 2025 – Aug 2025

- Engineered secure REST APIs using Node.js and Express; executed 50+ CRUD operations with complete status code handling and exception routing
- Built client-facing interfaces with React.js, boosting API interaction speed by 60% and reducing frontend latency to sub-100ms
- Designed and deployed role-based authentication with JWT and Bcrypt, hardening user data protection and passing security audits with 100% success
- Reviewed and optimized 10+ peer code submissions, leading to a 15% improvement in code maintainability and reduced bug count

PROJECTS

MERN STACK FULL-STACK APPLICATION

Jul 2025

- Constructed and deployed a high-traffic MERN web app capable of processing 500+ concurrent user requests per minute with latency < 100ms
- Integrated MongoDB with schema validations and Express middleware; enforced secure login using token-based (JWT) auth and hashed credentials

RESPONSIVE PORTFOLIO WEBSITE

Dec 2024

- Designed and deployed a modern responsive portfolio with 100% Lighthouse performance score; utilized SEO best practices to boost search visibility by 40%
- Integrated animated sections using JavaScript to highlight GitHub projects and certifications; hosted on Netlify with CI/CD setup

REST API WITH AUTHENTICATION

Jul 2025

- Built a modular RESTful API with Express.js and MongoDB, supporting full CRUD with role-based access and field-level validation
- Achieved 99.8% endpoint success rate through rigorous Postman testing and implemented JWT-based secure login/logout flow
